

## INTERNATIONAL ROLL-CALL® CORPORATION AND ALABAMA CELEBRATE SUCCESS

### A TESTAMENT TO THE IRC 3RD READING LEGISLATIVE MANAGEMENT SYSTEM

International Roll-Call® Corporation (IRC) staff and staff from the Alabama Legislature, led by the Honorable Pat Harris, Secretary of the Alabama Senate; the Honorable John Treadwell, Clerk of the Alabama House of Representatives, and Othni Lathram, Director, Alabama Legislative Services Agency recently came together to celebrate and discuss the success of the LINX/3rd Reading Legislative Management System at a staff retreat in Alabama.

As was stated by many, the success of the collaborative project was directly attributed to the collective partnership and shared vision for complete success. During the work session, and other scheduled program functions, staff shared best practices and success stories during the sessions.

## USER TESTIMONIALS

"Congratulations and thank you to all involved with the project. IRC did it right! They showed that it is essential to have and use people that know the legislative process, were able to understand our process, and then, and only then, figure out the technical components to automate those processes, not the other way around."

**-Othni Lathram, Director, Alabama Legislative Services Agency**

## INTERNATIONAL ROLL-CALL® CORPORATION AND ALABAMA CELEBRATE SUCCESS

“The Budget application had become unusable in the old ALIS system. We went from having to wait six (6) hours to change a figure to minutes. The system is very user friendly and allows me the ability to teach others how to use the system to create a state budget document.”

**-Dustin Jones, House Fiscal Officer, Fiscal Division, Alabama Legislative Services Agency**

“The new system successfully integrated multiple legacy applications into a unified solution. It works and has made our work more efficient and given us back time in our lives and with our families.”

**-Ernest Ince, Director of Information Technology, Alabama Legislature**

“IRC’s patience and attitude with the users was a positive experience. The system’s integration of project requests, drafting, and tracking provided much needed accountability to the process and for the users.”

**-Paula Greene, Deputy Director, Legal Division, Alabama Legislative Services Agency**

## INTERNATIONAL ROLL-CALL® CORPORATION AND ALABAMA CELEBRATE SUCCESS

“The new system is awesome. We love it! When the prior system was developed nobody asked or listened to what Committee Staff needed. Not only did IRC ask and listen to us, but they also made it happen.”

**-Vickie Robinson, Committee Clerks and Senate Assistants Supervisor, Alabama Senate**

“When the project started, IRC asked what we needed and we said, “I want to be able to use that computer in a way so that I can tell it exactly where to place an amendment and it would do it, that would be great. Well, they did it!”

**-Julie Saint, Enrolling and Engrossing Clerk, Alabama House of Representatives**

International Roll-Call® Corporation and the Alabama Legislature continue to work together on improvements and enhancements as needed. The project is a testament to essential user interaction with developers from beginning to end. It is an ongoing learning process for all.
